

ANATORA

Premium Natural Products

A young brand, powered by experience — sourcing the world's finest natural products and delivering them with trust.

ABOUT ANATORA

Who We Are

Anatora is a young and dynamic brand in Türkiye, founded by professionals with extensive experience and deep-rooted expertise in the agricultural commodity trade. Though young as a name, Anatora is built on years of solid industry knowledge, strong international relationships and an uncompromising commitment to quality.

We import premium natural products — from sesame and hibiscus to pulses and oilseeds — from the world's most fertile agricultural regions and deliver them through a transparent, traceable and sustainable supply chain, building a reliable trade network defined by trust, consistency and quality at every stage.

Our Mission

To leverage our founders' many years of experience to import the finest natural agricultural products from trusted producers worldwide and deliver them with natural purity, traceability and reliability — adding value across the entire supply chain.

Our Vision

To become the most trusted and respected natural products import brand in Türkiye, recognized globally for our commitment to quality, professionalism and ethical trade.

SOURCING & SUPPLY

Our Sourcing Network

We source sesame directly from leading producing countries across Africa and bring it to Türkiye through a dependable, traceable supply chain — backed by ample warehousing capacity.

● Nigeria

● Mali

● Chad

● Sudan

● Ethiopia

Direct Sourcing

Purchased at origin — quality and traceability from the source, with no unnecessary intermediaries.

Competitive Pricing

Strong origin relationships that translate into fair, competitive prices for our partners.

Reliable Supply

Consistent volumes and on-time delivery, supported by ample warehousing capacity.

OUR PRODUCTS

Premium Agricultural Products

Natural, carefully selected products — sourced at origin and processed to international export standards.

Premium Raw Sesame

Sesamum indicum

Natural, untreated sesame with a high oil content — ready for the tahini, food and oil industries.

Type / Grade	Natural · 99.5%
Main use	Tahini, food, oil

Whole Flower Hibiscus

Hibiscus sabdariffa

Sun-dried whole hibiscus flowers with a deep crimson colour and natural acidity.

Type / Grade	Whole · sun-dried
Main use	Tea, beverages, colouring

Mung Beans

Vigna radiata

Bright green, uniform mung beans — a protein-rich pulse, cleaned and graded to export quality.

Type / Grade	Whole · uniform
Main use	Sprouting, cooking, food

Non-GMO Soybeans

Glycine max

Premium non-GMO soybeans with a high protein and oil content for the food, oil and feed industries.

Type / Grade	Non-GMO · high protein
Main use	Food, oil, feed

QUALITY & PROCESS

Quality at Every Stage

All our products are cleaned, sorted, graded and packed in line with international standards — our sesame is processed to reach 99.5% purity.

1

Sourcing

Direct purchasing from trusted producers at origin.

2

Cleaning

Advanced cleaning to remove impurities.

3

Quality Control

Inspection & grading to export standards.

4

Packing

Food-safe packaging to order.

5

Export

Reliable, traceable delivery.

Packed in our own branded sacks and shipped in Anatora-branded containers — ample warehousing capacity ensures consistent, uninterrupted supply for our partners.
